

STD Exchange Token

Details on the payout schedule for participants in the three rounds of STD sales, the benefits that token holders receive, and future plans for scaling.

What Is An STD?

STD is the utility token of the centralized cryptocurrency exchange S-Trade that is leveraged throughout the cryptocurrency ecosystem. The STD token can be used as an investment asset as well as a tool for benefits and bonuses in the ecosystem.

Opportunities that STD token holders get

Loyalty program within the S-Trade ecosystem

STD token holders receive discounts on exchange trading fees, as well as the opportunity to participate in customized platform offers.

Receiving rewards in S-Crypto Liquidity Mining

STD token holders get the opportunity to join the investment area of S-Crypto Liquidity Mining by becoming a liquidity provider of the SWP/STD currency pair. Each user receives a reward in STD for providing liquidity.
